ARCTIC HAYES

EASIBLEED
DRAINING VALVE KIT

DOUBLE PACK!

A simple solution for broken radiator bleed valves. It can be used on any radiator. You do not need to drill any pilot holes in the radiator as the product is designed to self drill into the radiator wall.

- **CODE: AHEB2**

PVC PIPE
CEMENT

WRAS APPROVED PRODUCT

This non-drip thixotropic solvent based pipe cement is for use on non-pressurised PVC and ABS thermoplastic pipes and conduits.

- **CODE: PVCC125** - 125ml
- **CODE: PVCC250** - 250ml

KEY FEATURES
- Can be used in low and high temperature soil and waste pipework

* NOTE: Flammable

3-5 WAY CONNECTOR
WITH STRAIN RELIEF

There is now no need to open the wiring centre to attempt to trace wires back to old, broken components. Now you can cut the old cable, install the new component and wire it in using this useful and time efficient device.

FLUE GAS PROBE ADAPTOR

SCAN THE QR CODE!
to view the product page

The ultimate accessory for your existing Flue Gas Probe. This innovative adaptor extends the functionality of your flue gas probe, allowing you to effortlessly reach and measure flue gases in those hard-to-reach areas. Whether you're a professional HVAC technician or a dedicated DIY enthusiast, this adaptor enhances your toolset, ensuring you can perform precise and reliable measurements with ease.

- **CODE: FGPA**

KEY FEATURES

- Will fit most Flue Gas Analyser on the market: 6mm/7mm/8mm/10mm Probes
- Suitable for use with Kane, TPI, Testo, Anton, Rothenburger and Sauermann products
- Designed to attach seamlessly to your existing Flue Gas Probe. IP Protected design
- The adaptor provides additional length, enabling access to difficult areas that were previously out of reach
- Adaptor is built to withstand the demanding environments of flue gas testing
- Adaptor is engineered for quick and secure attachment
- Maintains the accuracy and reliability of your flue gas measurements
- Recyclable high grade polypropylene
- Manufacture via injection moulding
- Epdm high temperature gasket, prevents the probe falling and creates a tight seal

ARCTIC HAYES

EXPANSION VESSEL BRACKET

The expansion vessel bracket to be firmly and accurately connected to the heating system. This is designed for installations where space is limited.

• **CODE: TRAPEXV**

KEY FEATURES

- Manual air vent
- 3 bar safety valve
- Suitable for vessels from 2 to 25 litres (dependent on wall and wall fixings)

EXPANSION VESSEL SERVICE VALVE

This prevents draining down the whole heating which prevents losing time and chemical inhibitor. Easy point to re pressurize the expansion vessel, drain via washing machine hose and add chemical inhibitor whilst you have the added benefit of the filling loop adapter.

• **CODE: TRAPEXVALVE**

KEY FEATURES

- Easy drain point access
- Incorporated filling loop assembly
- Allows expansion vessel to be isolated
